

Year Round Birding Locations

- A** **McDavitt and Admiral Roads** bisect a large Black Spruce-Tamarack bog. Check for Great Gray Owls (year-round), Black-backed Woodpeckers, White-winged Crossbills (winter), Yellow-bellied Flycatchers and Connecticut Warblers (summer). Don't miss the Admiral Road feeders in winter — a reliable spot to see and photograph Boreal Chickadees (also Canada Jays, Pine Grosbeaks, redpolls and Pine Marten). Magnificent Mile feeders on McDavitt.
- B** **Stone Lake Road** — Watch for Northern Hawk Owls, Great Gray Owls and Northern Shrikes in winter. Summer breeders include LeConte's Sparrow, Sedge Wren, Black-billed Cuckoo and American Bittern. Yellow Rail has been recorded (very rare!). Scan the lake for Trumpeter Swans, loons, migrating waterfowl and a possible Moose. Check the public landing in spring migration for a warbler wave. Short-eared Owl possible spring and fall.
- C** **Owl Ave** — Listen and look for Boreal Chickadees, Canada Jays, White-winged Crossbills and Great Gray Owls along Owl Avenue & Arkola bog stretches. Make sure to stop by our huge feeding array at the Welcome Center: Pine Grosbeaks, Evening Grosbeaks, Common Redpolls, Hoary Redpolls (some years), all possible. In summer, listen for Yellow-bellied Flycatchers and Connecticut Warblers.
- D** The hayfields and meadows along **Dart & Racek** are the year-round home of Black-billed Magpies. In summer, look and listen for Bobolink, LeConte's Sparrow, Brewer's Blackbirds, Sedge Wren and both species of meadowlark. Snow Buntings, Northern Shrike and an occasional Snowy Owl may visit in winter. Nesting Sandhill Cranes.
- E** **Lake Nichols Road** is a great place to look for Great Gray Owls and Ruffed Grouse at dawn and dusk year-round. Also winter finches, Porcupine, Warblers, roadside wildflowers, butterflies in summer.

Winter Birding Locations

- F** County Road 133, County Road 7, and Lake Nichols Road all border large Black Spruce-Tamarack bogs. Scan for Great Gray Owls, Northern Hawk Owls and Bald Eagles. Don't miss feeders at Morse's and the boardwalk on Blue Spruce Road. Walk the Warren Woessner Bog Boardwalk at Warren Nelson Bog where both three-toed woodpeckers, crossbills, Snowshoe Hare and Canada Jays are possible (Pink Ladyslippers in summer).
- G** Scan the open country along County Road 7 for Great Gray Owls, Northern Hawk Owls, Rough-legged Hawks, Northern Shrikes and Snow Buntings. Sharp-tailed Grouse are possible year-round.

Spring/Summer Birding Locations

- H** Hayfields, pastures, and meadows — great for LeConte's Sparrow, Sedge Wren, Sandhill Crane, Black-billed Magpie and Black-billed Cuckoos. The pastures at the intersection of Poplar Road and Arkola Road (County Road 52) are especially good for Bobolinks and meadowlarks (Eastern and Western are possible) but also look and listen for Upland Sandpipers.
- I** Huge wet willow flats. Listen for American Bittern, Snipe, Virginia Rail and Sora. Sandhill Cranes, Moose and Wolves are possible.
- J** Just a nice quiet back road loop to stop and bird in spring/summer. Deciduous woods, creeks.

Sharp-tailed Grouse lek — activity possible late winter to early May, peaking in April (No accessible leks as of spring 2024).

Feeding Station (please make a donation if there is a donation box)

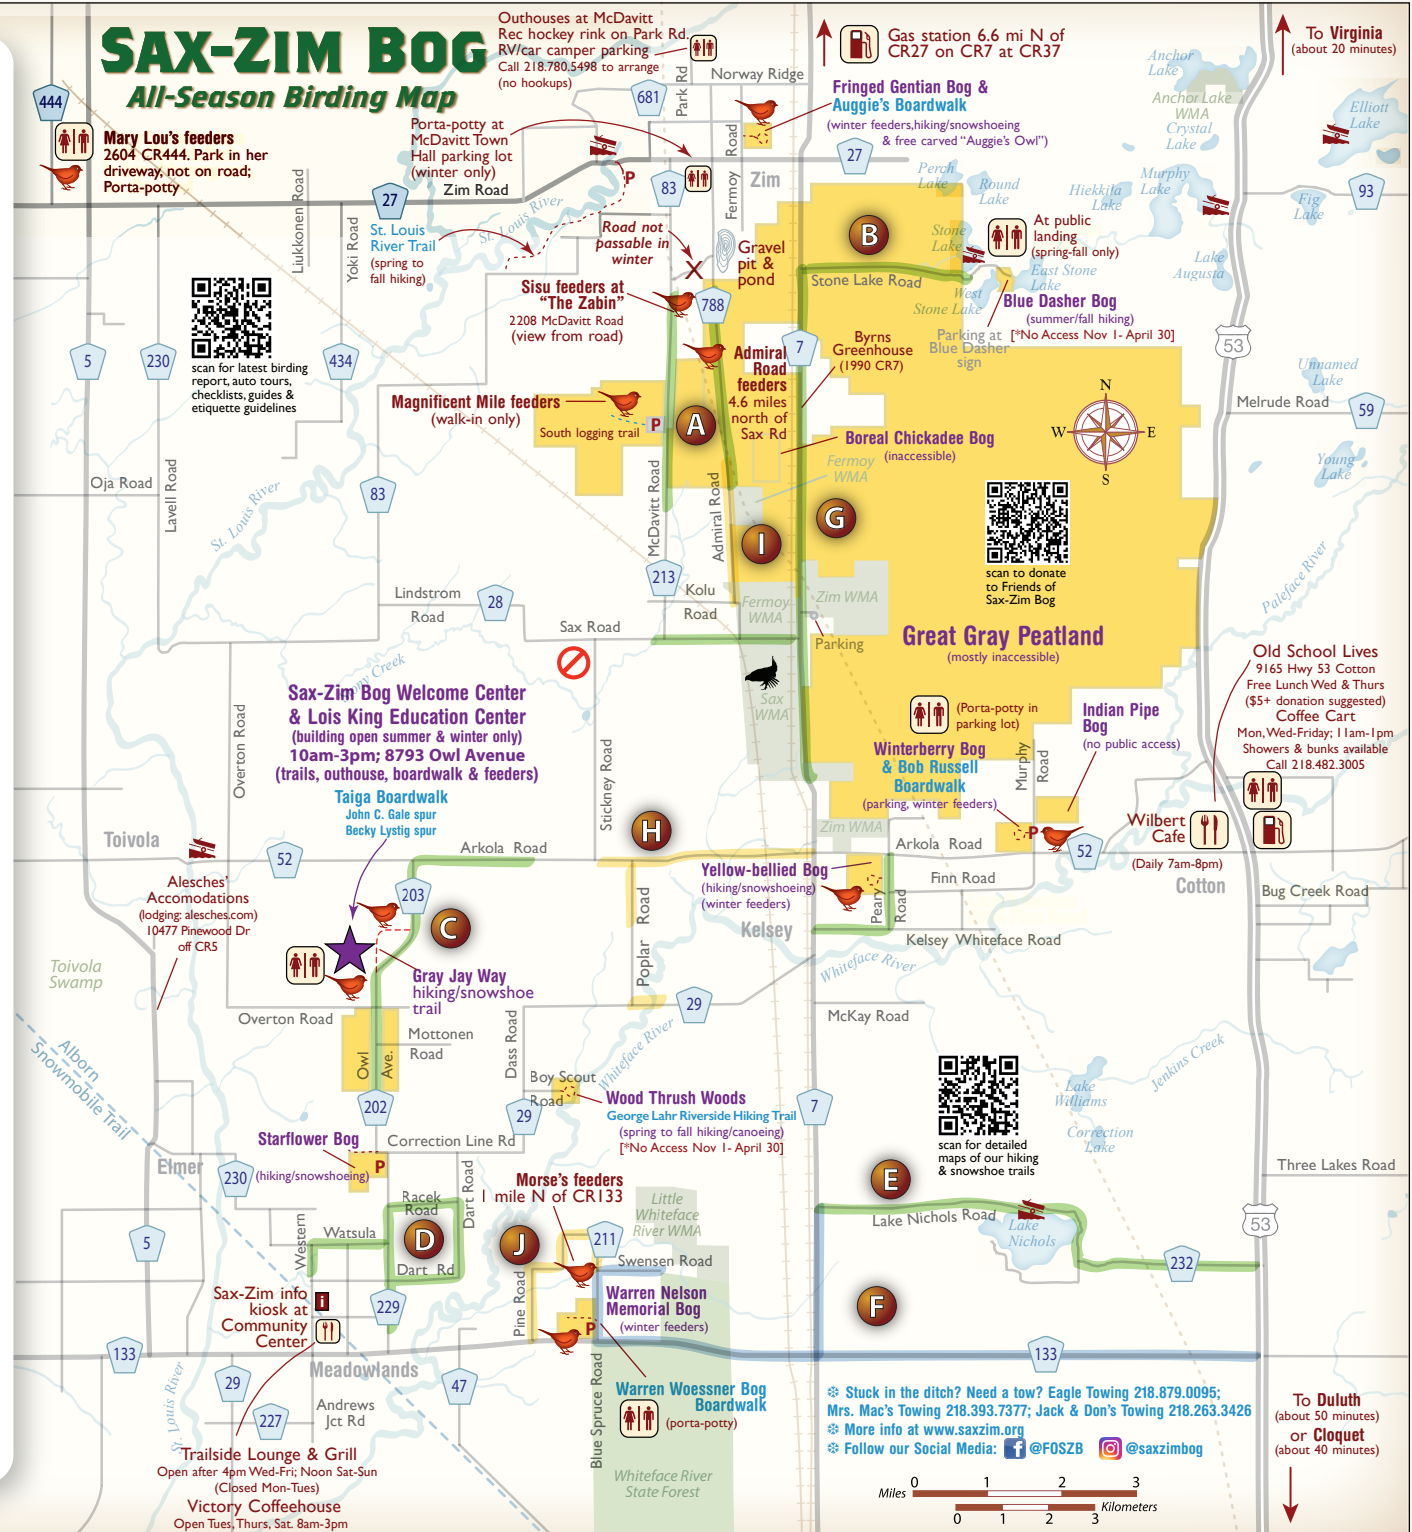

Friends of Sax-Zim Bog's Land Tracts: Winterberry Bog, Yellow-bellied Bog, Warren Nelson Memorial Bog, Great Gray Peatland, Fringed Gentian Bog, Starflower Bog, Wood Thrush Woods, Blue Dasher Bog & more. Explore! (*Some only open seasonally; see map. **Borders not to scale.)

Avoid the north end of Stickney Road if possible. Not a birder-friendly location. ★ = Welcome Center

Gas, Food, Restroom/Outhouse, Public Access
